SEC. ___. PAY-AS-YOU-GO POINT OF ORDER IN THE SENATE.

(a) POINT OF ORDER.—

(1) IN GENERAL.—It shall not be in order in the Senate to consider any direct spending or revenue legislation that would increase the on-budget deficit or cause an on-budget deficit for any 1 of the 3 applicable time periods as measured in paragraphs (5) and (6).

(2) APPLICABLE TIME PERIODS.—For purposes of this subsection, the term ''applicable time period'' means any 1 of the 3 following periods:

(A) The first year covered by the most recently adopted concurrent resolution on the budget.

(B) The period of the first 5 fiscal years covered by the most recently adopted concurrent resolution on the budget.

(C) The period of the 5 fiscal years following the first 5 fiscal years covered in the most recently adopted concurrent resolution on the budget.

(3) DIRECT-SPENDING LEGISLATION.—For purposes of this subsection and except as provided in paragraph (4), the term ''direct-spending legislation'' means any bill, joint resolution, amendment, motion, or conference report that affects direct spending as that term is defined by, and interpreted for purposes of, the Balanced Budget and Emergency Deficit Control Act of 1985.

(4) EXCLUSION.—For purposes of this subsection, the terms ''direct-spending legislation'' and ''revenue legislation'' do not include—

(A) any concurrent resolution on the budget; or

(5) BASELINE.—Estimates prepared pursuant to this section shall—

(A) use the baseline surplus or deficit used for the most recently adopted concurrent resolution on the budget; and

(B) be calculated under the requirements of subsections (b) through (d) of section 257 of the Balanced Budget and Emergency Deficit Control Act of 1985 for fiscal years beyond those covered by that concurrent resolution on the budget.

(6) PRIOR SURPLUS.—If direct spending or revenue legislation increases the on-budget deficit or causes an on-budget deficit when taken individually, it must also increase the on-budget deficit or cause an on-budget deficit when taken together with all direct spending and revenue legislation enacted since the beginning of the calendar year not accounted for in the baseline under paragraph (5)(A), except that direct spending or revenue effects resulting in net deficit reduction enacted pursuant to reconciliation instructions since the beginning of that same calendar year shall not be available.

(b) WAIVER.—This section may be waived or suspended in the Senate only by the affirmative vote of 3⁄5 of the Members, duly chosen and sworn.

(c) APPEALS.—Appeals in the Senate from the decisions of the Chair relating to any provision of this section shall be limited to 1 hour, to be equally divided between, and controlled by, the appellant and the manager of the bill or joint resolution, as the case may be. An affirmative vote of 3⁄5 of the Members of the Senate, duly chosen and sworn, shall be required to sustain an appeal of the ruling of the Chair on a point of order raised under this section.

(d) DETERMINATION OF BUDGET LEVELS.—For purposes of this section, the levels of new budget authority, outlays, and revenues for a fiscal year shall be determined on the basis of estimates made by the Committee on the Budget of the Senate.

(B) give ports the financial assistance needed to comply with congressional mandates;

(3) allocate sufficient funding for port security to—

(A) enable port authorities to comply with mandated security improvements;

(B) ensure the protection of our Nation's maritime transportation, commerce system, and cruise passengers;

(C) strive to achieve funding levels consistent with the needs estimated by the Coast Guard; and

(4) recognize—

(A) the unique threats for which port authorities must prepare; and

(B) the importance of safe, secure ports to protect the Nation's security and economy, which largely depends on maritime commerce.

SEC. ___. SENSE OF SENATE ON FUNDING OF SUBSONIC AND HYPERSONIC AERONAUTICS RESEARCH BY THE NATIONAL AERONAUTICS AND SPACE ADMINISTRATION.

(a) FINDINGS.—The Senate makes the following findings:

(1) The economic and military security of the United States depends on the continued development of improved aeronautics technologies.

(2) Research and development on many emerging aeronautics technologies is often too expensive or removed in time from commercial application to garner the necessary level of support from the private sector.

(3) The advances made possible by Government-funded research in emerging aeronautics technologies have enabled a longstanding positive balance of trade and air superiority on the battlefield for the United States in recent decades.

(4) The aeronautics industry has grown increasingly mature in recent years, with growth dependent on the availability of the research workforce and facilities provided by the National Aeronautics and Space Administration (NASA).

(5) The National Aeronautics and Space Administration Authorization Act of 2005 (Public Law 109–155) strongly endorses continuation of the aeronautics research and development programs of the National Aeronautics and Space Administration, and authorizes $962,000,000 for aeronautics in fiscal year 2007.

(6) Recent National Aeronautics and Space Administration studies have demonstrated the competitiveness, scientific merit, and necessity of nearly all existing aeronautics wind tunnel and propulsion testing facilities.

(7) A minimum level of investment by the National Aeronautics and Space Administration is necessary to maintain these facilities in operational condition and to prevent their financial collapse.

(b) SENSE OF SENATE.—It is the sense of the Senate that—

(1) the level of funding provided for Aeronautics Research within the National Aeronautics and Space Administration should be increased by $179,000,000 in fiscal year 2007.

(2) at least 50 percent of the increase provided should be applied to the Fundamental Aeronautics Program budget for use in subsonic and hypersonic aeronautical research.

(2) victims of disasters will benefit greatly when post-disaster contracting is conducted in a more efficient, open, and responsible way; and

(3) Congress should take action to reform the post-disaster contracting process to ensure that—

(A) appropriate action is taken to reduce fraud and abuse in post-disaster programs;

(B) full and open competition is used, unless emergency circumstances require otherwise;

(C) no-bid ‘‘mega-contracts’’ are awarded only in emergency situations and are limited to a short duration;

(D) more local firms are awarded contracts, to the extent feasible, to ensure that local jobs are created with the emergency response and rebuilding efforts; and

(E) all possible action is taken to root out bureaucratic waste and unnecessary tiers of contractors and subcontractors in post-disaster housing, emergency repair, and other programs, to help ensure that disaster victims get help quickly and that the most effective, efficient methods of providing assistance after a storm are employed.

At the appropriate place, insert the following:

SEC. ____. SENSE OF THE SENATE TO MAKE MORE EFFICIENT AND EQUITABLE, FISCALLY RESPONSIBLE APPROPRIATIONS AND REVENUE DECISIONS.

(a) FINDINGS.—The Senate finds the following:

(1) Federal programs and policies directly influence local growth patterns through the location of Federal facilities, spending on public infrastructure, tax incentives, and Federal regulations.

(2) A majority of Americans favor walkable neighborhoods, shorter commutes, and natural resource conservation, which are land development patterns favored by smart growth.

(3) Federal programs and policies should support local development choices that improve communities through the revitalization of town centers, transit- and pedestrian-oriented development, increased access to retail and public services, preservation of natural resources and parklands, and a greater mix of housing, commercial, and retail uses.

(4) Federal incentives should encourage enhanced community quality of life, fiscally sound reinvestment in existing infrastructure, a balanced transportation system, and safe, decent, affordable places for people to live.

(5) Investing in existing infrastructure is a fiscally responsible use of resources. When not properly planned, local development decisions may actually burden the Federal budget by requiring the construction of new water, sewer, and transportation infrastructure in low-density areas, rather than funding the maintenance of existing infrastructure. Poorly planned development also often results in increased commuting times, traffic congestion, impaired air quality, loss of open space and environmentally sensitive areas, public health problems, lack of affordable housing, and poor accessibility to critical services such as schools and hospitals.

(6) Improving and investing in communities through good planning and sustainable community development has positive effects, reflected, for example, in fiscal cost savings, lower energy consumption, and healthier environments. In addition, businesses are increasingly locating to areas that offer parks and preserve natural resources, provide walkable mixed-use communities, and include a variety of housing options.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the budgetary levels in this resolution assume that in making appropriations and revenue decisions, the Senate should—

(1) support Federal policies that encourage growth patterns that make efficient and equitable use of available housing, transportation, and infrastructure resources, including such policies as brownfields redevelopment programs, farmland protection programs, the retention of the Community Development Block Grant Program (CDBG), and Federal facility decisions, such as those made by the General Services Administration that consider the benefits of utilizing existing infrastructure; and

(2) address the unintended consequences of urban and suburban sprawl resulting from specific Federal programs and policies through the allocation of budgetary authority to provide incentives for sustainable growth.

SEC. ___. UNITED STATES RESPONSE TO GLOBAL HIV/AIDS, TUBERCULOSIS, AND MALARIA.

Congress makes the following findings:

(1) The HIV/AIDS pandemic has reached staggering proportions. Over 40,000,000 people are living with HIV/AIDS worldwide, and 5,000,000 more people become infected each year. HIV/AIDS is estimated to kill 3,000,000 men, women, and children each year.

(2) The United States was the first, and remains the largest, contributor to the Global Fund to Fight AIDS, Tuberculosis and Malaria (referred to in this section as the ''Global Fund'').

(3) The Presidential Administration of George W. Bush (referred to in this section as the ''Administration'') has supported legislative language that links United States contributions to the Global Fund to the contributions of other donors, permitting the United States to provide 33 percent of all donations, which would match contributions on a 1-to-2 basis.

(4) As of the date of the approval of this Resolution, Congress has provided ⅓ of all donations to the Global Fund since its inception.

(5) The Global Fund currently estimates that during fiscal year 2007, it will renew $1,600,000,000 worth of effective programs that are already operating on the ground, and the Administration and Global Fund Board have said that renewals of existing grants should receive priority funding.

(6) The Global Fund estimates that during fiscal year 2007, it could award $1,000,000,000 in funding to proposals submitted for Round 6.

(7) For fiscal year 2007, the President has requested $300,000,000 for the United States contribution to the Global Fund.

(8) The Global Fund is an important component of the United States efforts to combat AIDS, tuberculosis, and malaria, and supports approximately 350 projects in 130 countries.

(9) Through a mid-year review process, Congress and the Administration will assess contributions to date and anticipated contributions to the Global Fund, and ensure that United States contributions, at year end, are at the appropriate 1-to-2 ratio.

(10) Congress and the Administration will monitor contributions to the Global Fund to ensure that United States contributions do not exceed ⅓ of the Global Fund's revenues.

(11) The United States will need to contribute $566,000,000 more than the President's fiscal year 2007 request for the Global Fund to—

(A) fund ⅓ of renewals during fiscal year 2007;

(B) support at least 1 new round of proposals in fiscal year 2007; and

(C) maintain the 1-to-2 funding ratio.

(B) poor science, mathematics, and reading scores in elementary and high school;

(C) decreased access to higher education; and

(D) a critical shortage of qualified science and engineering graduates;

(2) America faces rapidly mounting health care costs and deteriorating access for Americans in need of medical care, hurting American companies' competitiveness and endangering our citizens' health and wellness;

(3) America has become too dependent on foreign sources of increasingly expensive non-renewable energy, hurting our companies' economic competitiveness, threatening our environment, and exacerbating our trade deficit;

(4) America faces a private and public savings crisis not seen since the Great Depression, resulting in fewer funds for productive investment, record indebtedness, and domestic and international economic imbalances;

(5) America has neglected innovation by failing to dedicate adequate resources to basic research, threatening present and future creative industries;

(D) to provide high school students science and engineering summer programs;

(E) to make saving for college easier;

(F) to restore the GEAR UP program for college-bound low-income students;

(G) to provide 600 science and engineering scholarships;

(H) to restore our commitment to Indian education through the Johnson O'Malley grants and tribal colleges and universities; and

(I) to increase the deduction for employer-provided education programs;

(2) HEALTH CARE.—

(A) innovative initiatives to reduce the rate of growth in health care costs and improve the quality of care in both the private and public sectors, without undermining access to care, such as paying for performance, promoting health information technology, and investing in comparative clinical effectiveness;

(B) a serious, collective debate about how to ensure that every American has health care coverage;

(C) initiatives to strengthen and preserve our nation's health care safety net programs for future generations of the most vulnerable among us; and

(D) initiatives that will promote a healthy workforce for a stronger America;
